

James W. Pennebaker

January 2021

Department of Psychology
University of Texas at Austin
1 University Station A8000
Austin, TX 78712
512-232-2781
E-mail address: Pennebaker@mail.utexas.edu
Webpage: <https://liberalarts.utexas.edu/psychology/faculty/pennebak>

Education

1973-1977 University of Texas, Austin, Texas, Ph.D. in psychology
1970-1972 Eckerd College, St. Petersburg, Florida, B.A. with honors
1968-1970 University of Arizona, Tucson, Arizona

Positions

2009-present Regents Centennial Liberal Arts Professor of Psychology
2016-2018 Executive Director of Project 2021 and Special Advisor to the Provost for Educational Innovation, University of Texas at Austin
2005-2014 Chair, Department of Psychology, University of Texas at Austin
2005-2009 Barbara Bush Professor of Psychology, University of Texas at Austin
2005-2010 International Professor of Psychology, University of Central Lancashire, UK
2004-2005 Associate Chair, Department of Psychology
1997-present Professor of Psychology, University of Texas at Austin
1995-1997 Chair, Department of Psychology, Southern Methodist University
1987-1997 Professor of Psychology, Southern Methodist University
1983-1987 Associate Professor, Department of Psychology, Southern Methodist University
1982-1983 Polygraph unit instructor, Federal Bureau of Investigation, Quantico, Virginia
1977-1983 Assistant Professor, Department of Psychology, University of Virginia, Charlottesville, Virginia

Honors

2021 William James Fellows Award, Association for Psychological Science
2016 APA Distinguished Contributions to Applications in Psychology
2015 Innovations in Methodology Award, Society of Personality and Social Psychology
2013 Distinguished Contributions to Social and Personality Psychology, Society of Personality and Social Psychology
2012-2015 President elect, President, Past President, Society of Personality and Social Psychology
2012 Hamilton Book Grand Prize Award, University of Texas at Austin
2012 Recipient of Outstanding Book Award, Society of Personality and Social Psychology
2010-present Academy of Distinguished Teachers, Distinguished Teaching Professor
2009-present Regents Centennial Professor of Liberal Arts
2008 Dads' Association Centennial Teaching Fellowship

- 2006-present ISI HighlyCited.com selection for being among the most cited researchers in Psychology/Psychiatry
- 2004 Hero of Midland, Texas, sponsored by the Midland Independent School District
- 2002 Outstanding Contributions to Health Psychology (APA Division 38)
- 2000 President's Associates Teaching Award, University of Texas
- 1995 Pavlovian Investigator Award, The Pavlovian Society
- 1993 D.H.C. (Docteur Honoris Causa - - honorary doctorate degree), Catholic University of Louvain, Louvain-La-Neuve, Belgium.
- 1989 Outstanding Researcher Award, Sigma Xi, Southern Methodist University
- 1989 Hilgard Visiting Professor, Department of Psychology, Stanford University

Research Grants

- 2019-2023 Templeton Foundation, Tracking and understanding the effects of transformative events in people's lives (coPI)
- 2019-2022 NIH, Social media and schizophrenia (CoPI)
- 2018-2021 FBI grant, Narrative deception detection
- 2018-2021 NSF grant, Sensor-based Assessment of Behavioral Lifestyles and Experiences (coPI)
- 2015-2018 NSF grant, Ambulatory monitoring to understand learning (coPI)
- 2015-2018 Templeton Foundation, Assessing values and behaviors using big data (coPI)
- 2013-2018 NSF INSPIRE, Language-based computational methods for analyzing worldviews (coPI)
- 2013-2014 Hope Labs, Palo Alto, Resilience and behaviors
- 2012-2016 Army Research Institute, Tracking and shaping the language of working groups
- 2012-2015 NSF grant, Psychosocial resources and language of interracial feedback (co-PI)
- 2009-2013 NSF grant, Minerva, Modeling discourse and social dynamics (co-PI)
- 2008-2011 Homeland Security (START), Language of political leaders
- 2008-2000 Sandia National Labs, Language analysis of a working group
- 2008-2010 U.S. Army, Writing among Army couples after deployment
- 2007-2011 Army Research Institute, Language and social dynamics
- 2007-2009 DOD and CIFA, Viewing text through English and Arabic eyes
- 2005-2007 NSF workshop on language and deception
- 2005-2006 U.S. Army, Timing of expressive writing to maximize coping
- 2004-2007 Binational Science Foundation, Math models of language and personality (coPI)
- 2000-2007 NIMH Grant, Interpersonal disclosure processes and health
- 1996-2000 NIMH Grant, Interpersonal disclosure processes and health
- 1994-1997 NSF Grant, Disclosure, language, and health
- 1991-1994 NSF Grant, Cognition, disclosure and health
- 1989-1991 NSF grant, The psychological consequences of the 1989 California earthquake
- 1987-1989 NSF grant, Inhibition, disclosing, and health
- 1984-1987 NIH grant, Perception of physical symptoms and blood pressure
- 1981-1984 NIH grant, Symptoms and blood glucose: Evaluation and utilization (co-PI)
- 1980-1981 NSF grant, Psychological impact of Mt. St. Helens Volcano, with Darren Newtonson

Teaching Experience

- Undergraduate Introductory Psychology, Health Psychology, Methodology, Social Psychology, Social Psychology of Religion, Social and Political Institutions (1854-present)

Graduate Language and Social Media, Language and Personality, Social Psychology of Language, Stress and Psychosomatics, Methodology, Social Psychology, Eating Behavior and Disorders, Social Physics, Words and Social Processes, Language and Literature

Ongoing Research Projects

1. I am interested in understanding how we can leverage new developments in technology, psychology, and related disciplines to improve undergraduate education. Much of the history of education has been based on people's hunches about what works and what doesn't. It's time we jumped into the data world to truly identify effective teaching methods and curricula and, using the research findings, build smarter classes and college experiences.

2. I'm also interested in understanding the nature of language and social processes. How do the words we use reflect our underlying feelings, thoughts, personality, and behavioral tendencies? In answering this question, we have developed a text analysis program, LIWC, that has allowed us to analyze language use on a word-by-word level for any text – whether a book, poem, song, webpage, or natural conversation. We are finding that the “junk words” people use – articles, pronouns, prepositions – are powerful markers of their linguistic styles and these styles are often linked to other aspects of their lives.

3. I am continuing some of my earlier work with disclosure, inhibition, and psychosomatic disease. Over the years, my research teams have studied how translating emotional experiences into language affects how people naturally interact with others. I'm still excited to see study after study validate that expressive writing can have powerful effects on people's physical and mental health.

4. Since the beginning of my career, I have been interested in how people perceive physical symptoms, moods, and physiological change. Studies deal with the relative contributions of internal physiological activity compared with situational cues in influencing individuals' self-reports and more objective indicators of physical symptoms, emotions, and behaviors.
